

Textile Manufacturing Skills Bootcamp

The sector's only bespoke, production-focussed programme, developed in partnership with world-leading textile manufacturers.

Designed specifically to meet the needs of the advanced textile manufacturing supply chain, this intensive 10-day programme focusses on theoretical textile study in the mornings, followed by site visits in the afternoons, where learners delve into the practicalities of textile production. The programme takes learners on a journey from how fibre is sorted and graded, through to finished material. All sessions run from 9am to 4pm. The course is 90% funded so the cost per delegate is only £350 + VAT.

WHO SHOULD ATTEND THIS PROGRAMME?

Whether you currently work in the sector, or looking to secure employment in the future, this course is open to anyone. There is no entry criteria. Existing industry staff can gain significant cross-sector benefits from this programme.
